

Accounting for Earth Moving & Excavation

VOLTAGE
ACCOUNTING PTY LTD
POWER UP YOUR BUSINESS

“While your clients expect you to complete bobcat work, excavation, trenching, levelling, site cleans and dirt removal, bookkeeping and tax matters often don’t the attention they deserve. While GST, BAS and tax payments often represent some of the largest financial obligations for a excavator or earth moving business owner, many end up paying too much tax and incur fines for non-compliance.”

Jan Prescott - Director

Running an excavation and earthworks business is not only hard work, it’s dangerous. The physical demands aside, you also need to contend with long hours and safety regulations plus you have the pressure of deadlines.

Here at Voltage Accounting we understand what is involved in running a successful excavation and earthworks business. Apart from the usual small business compliance issues of GST, BAS, PAYG and superannuation, we can assist you with managing your cash flow and help you obtain finance for your bobcat, trencher, post hole drill or tipper truck. We’ll make sure the finance is structured for maximum tax effect, help you select the most appropriate accounting software for your business and assist you to manage your payroll and sub-contractors.

THINKING OF STARTING AN EXCAVATION OR EARTH MOVING BUSINESS?

As a business start-up specialist, Voltage Accounting team of accountants have helped dozens of excavators and earth moving business owners get their business off to a flying start. We offer you experience, technical tax knowledge and most importantly, an intimate understanding of your industry.

We have also developed a number of practical tools to help you make the right opening moves in your business including our start up expense checklist that will help you identify all your potential establishment costs including tools, equipment, IT expenses and marketing costs. These numbers then automatically feed into a cash flow budget template to produce a profit and loss forecast for your first year of trading. We can also help you put together your business, marketing and financial plans using our in-house resources.

Our unique business approach is all about fast tracking your business success and the team at Voltage Accounting offer you a range of accounting, taxation and business coaching services including:

- Start-Up Business Advice for Excavation & Earth Moving Business Owners
- Advice regarding the Purchase or Sale of an Excavation Business
- Tools including the Start-Up Expense Checklist and Templates for a Business Plan, Cash Flow Budget, Letterhead and Business Card
